This permit to change the place of use of the waters of an underground source as heretofore granted under Permit 27327 is issued subject to the terms and conditions imposed in said Permit 27327 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times. The total annual duty of water allowed under this permit and Permit 33364 shall not exceed 309.16 acre-feet for the irrigation of a total of 77.29 acres.
